Schools are ranked by performance at A-level and GCSE in summer 2019. The number of A\*, A and B grades gained is expressed as a percentage of the total number of A-level entries overall. This is double-weighted. The number of 9, 8, 7, A\* and A grades gained at GCSE is expressed as a percentage of the total number of GCSE entries overall. We include IGCSEs sat in independent schools. This is single weighted. School rankings are based on their combined performance in these examinations. Rankings based on performance at A-level or GCSE alone can be found by clicking on the relevant columns displayed in the league table. International Baccalaureate outcomes have been converted to equivalent A-level grades where schools have asked us to do so. IB Higher level outcomes grades 7, 6 and 5 are equivalent to A-level grades A\*, A and B respectively. IB outcomes are also listed in a separate section, see below. The same principle applies to Pre-U outcomes, where more than 50 examinations were taken. D1 and D2 was taken as equivalent to A\* at A-level; D3 and M1 was taken as equivalent to an A-grade and M2 to a B grade at A-level.
